SOFTWARE ENGINEERING PROJECTS

SPORTS BROS | https://sportsbros.surge.sh/ **|** https://github.com/DerekDunlap/SportsNews
- A sports news app that gives you up-to-date information. Used the ESPN API to supply the news articles, scores, etc.
- Javascript, HTML, CSS, and Bootstrap. Deployed using Surge.

PORTFOLIO WEBSITE |HTTPS://KAI-JENKINS.NETLIFY.APP/ | https://github.com/KMJENK17/Kai-Site
- My portfolio website is a platform that showcases my skills as a developer using a react app.
- React.js, CSS, HTML. Deployed using Netlify.

VISIT OCEAN AIR | https://visitoceanair.com/ **|** https://github.com/Zkellogg/OceanAir
- Visit ocean air allows for a property rental company to not have to use Airbnb. Using the Guesty API to fulfill needs.
- Javascript, Node.js, React.Js, Redux, Prisma, HTML, Bootstrap, Postman, and JWT. Deployed using Hostgator.
- Converted to a WordPress site so the owners could change images, prices, etc with ease.

EXPERIENCE

Full Stack Web Developer | Digitalcrafts |Atlanta, Georgia | 07/2021 - 10/2021
- Collaborated by applying Agile methodologies using Github, Slack, and Trello with group members to achieve on-time completion of tasks.
- Employed REST APIs to automate the integration of data from remote platforms such as ESPN, Guesty, etc.
- Developed production-quality web pages using technologies such as React.js, PostgresSQL, HTML, and CSS.

Sales Advisor | Best Buy | Cumming, Georgia | 09/2019 - 07/2021
- Achieved monthly sales goals by maintaining a proficient knowledge of products to allow for effective communication with clients.
- Achieved monthly client survey goal of 100% by going above and beyond for client satisfaction.
- Various computers required a fix via the terminal. Being able to find certain files via CLI allowed for fixes.
- Being hands-on with macOS, Windows, and Linux daily; Allowed me to be more comfortable with the various issues that clients would bring up.
